

- Odor adsorbing finish
- Based on Cyclodextrins: compounds made up of sugar molecules bound together in a ring
- β -Cyclodextrins are able to adsorb unpleasant odor (fatty smells, cigarette smoke etc.)
- Application on shirts, home textiles to adsorb odor
- Odor is released when the fabric is washed

Evo Fresh Hang Tag

- Hang tag for odor adsorbing finish
- Treatment with Evo Fresh CDL and binder
- Woven fabrics (shirtings): combination of Evo Fresh CDL with easy care finish, e.g. Evo Pret RGE
- Knitted fabrics: combination of Evo Fresh CDL with polyurethane binder, e.g. Evo Fin UPI
