

STANDARD 100

Dear cliente,

We are committed to the pursuit of excellence, and understand quality not only as meeting performance requirements, but also in attending to consumer health and environmental protection aspects.

To this end, we are certified under the **OEKO-TEX® STANDARD 100** in **Classes I** and **II,** ensuring that our products are processed through environmentally responsible processes and are free from substances harmful to the health and well-being of consumers.

- **Class I** applies to products intended for **babies and children up to 3 years** old, ensuring the highest levels of safety, comfort, and health protection for the most sensitive and vulnerable consumers.
- **Class II** covers products intended for **direct contact with the skin**, ensuring high levels of safety, comfort, and health protection suitable for everyday use

Order Processing Guidelines

When placing an order for processing in accordance with the OEKO-TEX® STANDARD 100, please clearly specify the desired class. If no class is indicated, we will, by default, process the order under Class II.
